

# TEAM EVEREST

## ABOUT TEAM EVEREST

We are a non-profit organisation working to promote volunteering in India and provide quality education to children who could not afford it. We work with 40,000 children every year with support from 15,000 Volunteers.

Our dream is to inspire every Indian to Volunteer at least once a month (12/365).

# HOW WE STARTED ?

Team Everest started its journey in 2006 when Karthee Vidya, founder of Team Everest finished his engineering and joined the corporate world. He donated from his first month salary and also collected donations from 3 of his friends.

With Rs 4000 in hand, he visited a rural school in Tamilnadu where 70% of the children were child labourers. He paid them school fees, donated uniforms, notebooks and other stationaries.

From there we have grown to what we are today with the help of thousands of Volunteers. The founder has quit his high paying corporate job and doing full time social work with Team Everest now.

# OUR FOCUS AREA

Promoting  
Volunteering

Providing  
Education

# WHAT WE DO ?

Scholarships

Educational Initiatives

# SOME OF OUR INITIATIVES...

## I AM THE CHANGE SCHOLARSHIP

This scholarship allows the parentless and single parented students to pursue graduation. The scholarship also offers year-long career skills training for its students to make them employable. So far 400 parentless and single parented students have benefited from it.

## COMPUTER FOR ALL

It is an initiative to teach 'Basics of Computers' to children who do not have access to computers. In today's competitive world, knowing computers is an asset, and we do not want any child to miss out. More than 10,000 children get benefitted from this initiative every year.
